3. A horse-drawn field artillery unit, believed to be the 2nd Bn of the 10th FA Regt of the 4th Mtn Div, has arrived in Kasperske Hory and now occupies the quarters recently vacated by the SHB training center. A new artillery field range is to be constructed at Boubin near Vimperk, and several villages have already been evacuated. In Vimperk, the local barracks are being enlarged.
4. On 10 October 1950, a tank unit arrived in Sokolov (H51/P50) and was billeted in a local castle. A unit consisting of about 400 men arrived in Jindrichovice (H51/P49) on 18 October 1950 and was quartered in the Hostitz castle, formerly occupied by Greek children. Although the unit has not yet been identified, it is believed to be an artillery battalion.

9. The Army Geographical Institute was allegedly transferred from Prague to Banska Bystrica, probably to the VI Army Corps building on the Hron river.

~~CONFIDENTIAL~~ Comment: Normally 36 mortars form the equipment of a mortar regiment. If 100 mortars really were issued to this regiment, it may indicate that in case of mobilization the regiment will be split into three regiments.
